Habit: Mounding      Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

Hot pink splashes adorn this vigorous growing 'Obsidian' sport. Pink flecks emerge in spring and continue to enlarge and brighten before lightening to cream as the season progresses. Bold, black, and beautiful for sunny locations. This marvelous addition was discovered at Behnke Nursery. A special find! Voted Best New Plant in Show at the Woking Nursery show in England in 2008.
